

RESEARCH PROGRAMS

YEAR	TITLE	PI
2000-2002	OPTIC DISK TOPOGRAPHY STUDY	Principal Investigator
2000-2002	RETINAL BLOOD FLOW STUDY	Principal Investigator
2000-2003	Tele-Ophthalmological Services Citizen Centred Applications (TOSCA)	Co- Investigator
2000-2006	THESSALONIKI EYE STUDY	Principal Investigator
2000-2007	Visual disability due to macular degeneration in elderly European Populations: a multi-center study of prevalence and risk factors. EUREYE STUDY.	Principal Investigator for Greece
2002-2007	HERAKLITUS: Epidemiology study of the age related macula degeneration in The Greek population	Principal Investigator
2003-2004	GeEpNet (Genetic Epidemiology Network)	Principal Investigator
2004-2007	Healthy Vision and Aging in the Greek population	Principal Investigator
2005-2009	PENED 2003: Study of genotypes-phenotypes of glaucoma and the laser Digital technologies contribution in early diagnosis and phenotyping Classification	Principal Investigator
2005-2007	PYTHAGORAS II: Studies on phenotyping of glaucoma and AMD and contribution of laser imaging technologies in early diagnosis and phenotyping classification.	Principal Investigator
2006-2009	Pilot Study for European Glaucoma Society GlaucoGENE (EGS-GG).	Principal Investigator for Greece
2007-2008	Pilot Study European Glaucoma Society GlaucoGENE (EGS-GG) II.	Principal Investigator for Greece
2007	European Optic Disc Assessment Trial (EODAT).	Co-Investigator
2007-2009	Diagnostic Logistics in Glaucoma (DIALOG)	Principal Investigator
2007-2009	CCT-IOP: Central Corneal thickness and 24-hour intraocular fluctuation.	Principal Investigator

2008-2014	Effects of topical hypotensive drugs on Circadian ocular perfusion pressure and ocular blood flow in patients with open-angle glaucoma. (Alcon Protocol C-07-16.)	Principal Investigator
2010-2013	Validation Study European Glaucoma Society GlaucoGENE (EGS-GG) III.	Principal Investigator for Greece.
2010	Genome Wide Association Studies (Wellcome Trust, UK): Genetic Epidemiology industries in glaucoma	Co-Investigator
2010-2014	A 2-year randomized, single-masked, multicenter, controlled phase IIIb Trial assessing the efficacy and safety of 0,5mg ranibizumab in two "treat" And extend" treatment algorithmus vs 0.5 mg ranibizumab as needed in Patients with macular edema and visual impairment secondary to Diabetes Mellitus	Principal Investigator
2011-2016	Long-term safety study of xalatan in pediatric populations: A prospective, non interventional, longitudinal cohort study to evaluate the long-term Safety of xalatan treatment in pediatric populations	Principal Investigator
2012-2015	Thessaloniki Eye Study: 10-year incidence of glaucoma and age related macula degeneration.	Principal Investigator
2012 -	European Eye Epidemiology (E3) Consortium	Co-Investigator
2012-2015	Thessaloniki Eye Study: Incidence Study-Genetic Study	Principal Investigator
2013-2015	Thessaloniki Eye Study: Incidence Study – Field: Incidence of glaucoma	Principal Investigator
2013-2015	Thessaloniki Eye Study: 10year incidence study of diabetic retinopathy	Principal Investigator
2015-2016	Long term surveilliance study of latanoprost to monitor hyperpigmentation changes in the eye in pediatric populations.	Principal Investigator

2015-2016	Safety and Efficacy assessment of Monoprost (unpreserved latanoprost) in comparison with Lumigan 0.01% and Lumigan 0.03% UD, in patients with open angle glaucoma or ocular hypertension, stabilized by all prostaglandin (except Monoprost) with ocular surface intolerance	Principal Investigator
2015-Ongoing	Additive effect of twice daily brinzolamide 1%/brinzolamide 0.2% fixed dose combination as an adjunctive therapy to a prostaglandin analogue	Principal Investigator
2016-Ongoing	Safety and efficacy with twice daily Brinzolamide 1%/Brimonidine 0.2% (SIMBRINZA) as an adjunctive therapy to Travoprost 0.004%/Timolol 0.5%	Principal Investigator
2017- Ongoing	eyeWatch System, Surgical Clinical Trial evaluating eyeWatch System/device	Principal Investigator
2017- Submitted	Screening for Diabetic Retinopathy. Low-cost methodologies for assessing fundus images of the eye	Principal Investigator
2018- Ongoing	Efficacy and safety assessment of T4032 (unpreserved bimatoprost 0.01%) versus Lumigan® 0.01% in ocular hypertensive or glaucomatous patients	Principal Investigator
2019- Ongoing	Effect of Neurotidine® (citicoline free acid in oral solution) on quality of life in patients with glaucoma	Principal Investigator
2019- Ongoing	AN INVESTIGATION OF GLAUCOMA SCREENING EFFECTIVENESS	Principal Investigator
2019- Ongoing	A prospective, phase III, multicenter, randomized, investigator-masked, parallel groups, non-inferiority clinical trial for the comparison of efficacy and safety and of a generic fixed combination of Brinzolamide 10mg/ml / Timolol 5 mg/ml eye drops suspension versus Azarga®/ALCON 10mg/ml – 5mg/ml eye drops suspension in subjects with open angle glaucoma or ocular hypertension.	Principal Investigator
